ABOUT OUR IM&GINATION

At M&G, our purpose is clear; we want to help you, and your clients, to prosper by putting your investments to work. We do this by making informed decisions to drive long term value while aiming to shape a better financial future for everyone.

For us, investing well requires a responsible, active and long-term approach. That means that we think creatively to stay at the forefront of new investment thinking, providing invaluable insight. We act with conviction, rising to meet new challenges and expectations to ensure dependable support. We work in partnership with our customers, clients and the community, aiming to lead the market, not to follow.

It's this combination of using our vision, expertise, and insight that we think makes us different. We call it our **IM&GINATION**.

The value of investments will fluctuate, which will cause fund prices to fall as well as rise and you may not get back the original amount you invested.
